Sample Setup for 1 iPad using iConnectMIDI4+

 In this setup I am designating:

- Target 0 for Composer Tools Pro
- Target 1 for C_brains
- Target 2 for MK Transport
- Target 3 for MK Connect

Since all the products will be installed on the same iPad, they can all share the same connection to MK Connect.

Cubase

Device Setup: MIDI Port Setup
Make sure to include iConnectMIDI4+ DIN 1 in your "In All MIDI" devices. This where Composer Tools
Pro will send its performance controls-- you want to record this stuff onto your tracks!
Logically then, you want to *deselect* all the others. You DON'T want to record C_brains & MK Transport
MIDI data onto your tracks.

Device Setup: C_brains Generic Remotes (both)
MIDI Input: iConnectMIDI4+ DIN 2
MIDI Output: iConnectMIDI4+ DIN 2

Device Setup: MK Transport Generic Remote and Mackie Control
MIDI Input: iConnectMIDI4+ DIN 3
MIDI Output: iConnectMIDI4+ DIN 3

Composer Tools Pro Recall Send (where you send the Transformer on each track)
iConnectMIDI4+ DIN 1
